

mc-homology/core/include
/core/cubical_complex_3d.h

```
graph BT; A["mc-homology/core/src/cubical_complex_3d.cpp"] --> B["mc-homology/core/include/core/cubical_complex_3d.h"]; C["mc-homology/core/src/parser.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a grey box representing a header file: `mc-homology/core/include/core/cubical_complex_3d.h`. Below it are two white boxes representing source files. The left box is `mc-homology/core/src/cubical_complex_3d.cpp` and the right box is `mc-homology/core/src/parser.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header.

mc-homology/core/src
/cubical_complex_3d.cpp

mc-homology/core/src
/parser.cpp
